What Are the Benefits of Six Star® Casein Protein?

- ★ Provides sustained-release casein protein
- ★ Casein protein component prolongs amino acid delivery

- ★ Provides the BCAAs leucine, isoleucine and valine!
- ★ Supports muscle recovery when used to help you meet your daily protein requirements*

Powered by Sustained-Release Casein Protein

100% of the casein protein component in Six Star® Casein Protein is high-quality casein, which is a slow-release form of protein that is rich in essential, non-essential and branched chain amino acids – and with added milk protein, you get a sustained release for up to 8 hours.*

Prolonged Amino Acid Delivery Before Bed

Research has shown that casein protein has a slow absorption rate into the bloodstream, which results in sustained amino acid delivery. The slower digestion and delivery help feed your muscles with a continued flow of powerful amino acids.* Take Six Star® Casein Protein between meals and before bed.

Award-Winning Taste You Will Love

The American Masters of Taste, a prestigious panel of chefs and flavor experts, awarded Six Star® Casein Protein the Gold Medal for Superior Taste against all other value brands in America. Trust Six Star® Casein Protein for optimum performance and award-winning taste you'll love.
