

Best Energy featuring **NIAGEN™** supplies authentic nicotinamide riboside (NR), an ORTHO¹ nutrient primarily involved in human energy production and metabolic regulation. NR is naturally found in foods and is a metabolic starter for NAD (nicotinamide adenine dinucleotide), which our cells absolutely require to generate energy. NR also helps regulate cell energy utilization to support structural integrity in the brain, heart, muscles, liver and other organs.

- Enhances mitochondrial energy production*
- Facilitates glucose and fat utilization for energy*
- Promotes energy-dependent regulation of cell functions*
