

fūcoTHIN® is a natural, whole food based supplement that is made with a proprietary concentration of fucoxanthin and pomegranate seed oil, for a patent-pending formula that is naturally thermogenic.[†] Thermogenesis is the process by which the body increases its metabolic rate, requiring utilization of internal stores of energy, such as fat. **fūcoTHIN®** supports the metabolism or breakdown of fat, without stimulating the central nervous system.[†]

Clinical research indicated an average weight loss of 14.5 lbs. compared to 3 lbs. with placebo. It may take 6 weeks of consecutive use to experience significant thermogenic response.

CAUTION: As with any dietary supplement, consult your healthcare practitioner before using this product, especially if you are pregnant, nursing, anticipate surgery, take medication on a regular basis or are otherwise under medical supervision.

Do not take if safety seal is broken or missing.

Store in a cool, dry place. **Keep out of reach of children.**

[†] These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
