Lutigold™ Lutein is derived from pure, natural sources only - never synthesized in a lab. Lutigold™ Lutein is also non-genetically modified. As we age, our body's natural supply of Lutein decreases and since Lutein is not made in the body - it's important to take every day. When choosing Lutein, make sure it's Lutigold™!

Lutein is one of the most abundant carotenoids found in fruits, vegetables and even plants like marigolds. Lutein has antioxidant properties and is found in the macula of healthy eyes.\*
