

Vitamin E is an essential nutrient and is the body's primary, fat-soluble antioxidant. Vitamin E provides nutritional support for the many cells, including heart muscle cells, and the immune system. It helps fight cell-damaging free radicals that cause oxidative stress in the body, which may contribute to the premature aging of cells. This formulation provides natural source Vitamin E (as d-Alpha tocopherol plus d-Gamma, d-Delta and d-Beta tocopherols). It is offered in oil-based softgels to promote optimal absorption and assimilation.*

Carefully Manufactured for:
Solgar, Inc., 500 Willow Tree Road
Leonia, NJ 07605 U.S.A.
