# If you're serious about performance and results, you need the ALL-NEW MuscleTech® Performance Series!

NO Proprietary Blends NO Underdosed Key Ingredients NO Banned Substances NO Fillers NO Exceptions

### **Just the Most Powerful Formulas Available**

### The Most Powerful Creatine Musclebuilder Ever Developed CELL-TECH™ is a scientifically engineered hardcore creatine formula designed for hardgainers who

have trouble putting on size and strength. This patent-protected creatine formula contains core ingredients supported by over 30 research studies conducted over multiple decades, CELL-TECH" is packed with powerful musclebuilding ingredients and is formulated to deliver:

### Faster Muscle Growth

Each two-scoop serving of CELL-TECH" delivers 7 grams of HPLC-certified creatine monohydrate and 3 grams of creatine HCI. Subjects who consumed the amount of creatine and carbohydrates supplied during the CELL-TECH"

loading stage (see directions) gained, on average, 3.4 pounds of muscle in 7 days. Subjects taking creatine with juice gained only 0.8 pounds. A

### Increased Strength

In another study, subjects taking the amount of creatine and carbohydrates found in two scoops of CELL-TECH\* significantly increased their strength on the bench press. leg press, and biceps curl. A

### Enhanced Nutrient Transport Each two-scoop serving of CELL-TECH" includes 200mg of the powerful compound alpha lipoic acid (ALA). Research suggests

that ALA helps improve the absorption of creatine and glucose into the muscle cell through specialized transporters. A

## More Muscle Size and Fullness

CELL-TECH" delivers a multi-stage combination of carbohydrates that forces a nowerful insulin snike post-workout. This helps shuttle creatine and other nutrients into the muscle and rapidly replenishes glycogen stores, facilitating glycogen supercompensation and an intense muscle-expanding effect.

Kalman et al., 2000. Medicine & Science in Sports & Exercise, 32(5):562(S136), [Abstract] Tamopolsky et al., 2001. Medicine & Science in Sports & Exercise, 33(12):2044-52. Parise et al., 2000. Canadian Journal of Applied Physiology. 25(5):396. [Abstract]

not lead to the down regulation of creatine transporters. This allows athletes to continue to benefit from creatine use. instead of cycling on and off. A

### Branched Chain and **Cell-Volumizing Amino Acids**

In addition to its key musclehulding ingradients. CELL-TECH? supplies the branched chain amino acids L-leucine, L-valine, and L-isoleucine in a 2:1:1 ratio. Branched chain amino acids are free-form amino acids - singular molecules that are quickly digested and absorbed into the bloodstream CELL-TECH" also contains the amino acids tauring and alanine. These free-form amino acids are two of the most abundant amino acids in muscle and aid in cell volumization. A

### Get More for Your Money Unlike the competition. Performance Series products contain

superior key ingredients in clinically dosed amounts that are fully disclosed so you know exactly what you are paying for.

### Best-in-Class Taste

CELL-TECH™ was flavored by one of the world's top flavoring houses by leading flavor experts in order to taste better than any other creatine powder on the market.
