

If you're serious about performance and results, you need the ALL-NEW MuscleTech® Performance Series!

- NO Proprietary Blends
- NO Underdosed Key Ingredients
- NO Banned Substances
- NO Fillers
- NO Hype
- NO Exceptions

Just the Most Powerful Formulas Available

The Most Powerful Creatine Musclebuilder Ever Developed

CELL-TECH™ is a scientifically engineered hardcore creatine formula designed for hardgainers who have trouble putting on size and strength. This patent-protected creatine formula contains core ingredients supported by over 30 research studies conducted over multiple decades. CELL-TECH™ is packed with powerful musclebuilding ingredients and is formulated to deliver:

• Faster Muscle Growth

Each two-scoop serving of CELL-TECH™ delivers 7 grams of HPLC-certified creatine monohydrate and 3 grams of creatine HCl.

¹Subjects who consumed the amount of creatine and carbohydrates supplied during the CELL-TECH™ loading stage (see directions) gained, on average, 3.4 pounds of muscle in 7 days. Subjects taking creatine with juice gained only 0.8 pounds. [▲]

• Increased Strength

In another study, subjects taking the amount of creatine and carbohydrates found in two scoops of CELL-TECH™ significantly increased their strength on the bench press, leg press, and biceps curl. [▲]

• Enhanced Nutrient Transport

Each two-scoop serving of CELL-TECH™ includes 200mg of the powerful compound alpha lipoic acid (ALA). Research suggests that ALA helps improve the absorption of creatine and glucose into the muscle cell through specialized transporters. [▲]

• More Muscle Size and Fullness

CELL-TECH™ delivers a multi-stage combination of carbohydrates that forces a powerful insulin spike post-workout. This helps shuttle creatine and other nutrients into the muscle and rapidly replenishes glycogen stores, facilitating glycogen supercompensation and an intense muscle-expanding effect. [▲]

• No Cycling

A clinical study revealed that the use of CELL-TECH™ did not lead to the down regulation of creatine transporters. This allows athletes to continue to benefit from creatine use, instead of cycling on and off. [▲]

• Branched Chain and Cell-Volumizing Amino Acids

In addition to its key musclebuilding ingredients, CELL-TECH™ supplies the branched chain amino acids L-leucine, L-valine, and L-isoleucine in a 2:1:1 ratio. Branched chain amino acids are free-form amino acids – singular molecules that are quickly digested and absorbed into the bloodstream. CELL-TECH™ also contains the amino acids taurine and alanine. These free-form amino acids are two of the most abundant amino acids in muscle and aid in cell volumization. [▲]

• Get More for Your Money

Unlike the competition, Performance Series products contain superior key ingredients in clinically dosed amounts that are fully disclosed so you know exactly what you are paying for.

• Best-in-Class Taste

CELL-TECH™ was flavored by one of the world's top flavoring houses by leading flavor experts in order to taste better than any other creatine powder on the market.

Other Ingredients: Multi-stage Carb Blend (Glucose Polymers, Dextrose, Modcarb™ [Dat Bran, Quinoa, Buckwheat, Millet], Waxy Maize [Corn Starch], Highly Branched Cyclic Dextrin), Natural and Artificial Flavors, Citric Acid, Calcium Silicate, Dicalcium Phosphate, Salt, Stearic Acid Or Sunflower Lecithin, Acesulfame-Potassium, FD&C Yellow No. 6, FD&C Yellow No. 5 Lake, Sucralose. **Processed in a facility that also processes soy, milk, wheat, egg, tree nut, peanut, fish and shellfish ingredients.**

DIRECTIONS: Take 1 scoop of CELL-TECH™ with 6 oz. of water immediately following your workout. If you're not training that day, have your serving in the morning when you wake up.

FOR BETTER RESULTS: Take 2 scoops of CELL-TECH™ with 12 oz. of water immediately following your workout. If you're not training that day, take 2 scoops in the morning when you wake up.

FOR BEST RESULTS: For the first 7 days (loading stage), take 2 scoops of CELL-TECH™ with 12 oz. of water in the morning when you wake up and 2 scoops with 12 oz. of water immediately after your workout. If you're not training that day, take 2 scoops with 12 oz. of water in the morning when you wake up and 2 scoops with 12 oz. of water later in the day. Maintenance stage: Take 2 scoops of CELL-TECH™ with 12 oz. of water immediately following your workout. If you're not training that day, take 2 scoops with 12 oz. of water in the morning when you wake up.
