The Strongest Pre-Workout Formula Ever Developed
NANO VAPOR® is the first pre-workout to deliver the unique and innovative combination of ingredients found in its formula. It supplies

- key ingredients that have been dosed based on human clinical research and delivers:
- First-Dose Strength Gains During the last set of an exhaustive 16-set chest workout, subjects
- taking 8.000mg of L-citrulline malate were still able to increase the number of reps on their bench press by 53%.**
- Long-Lasting Focus and Clean Energy Boost First to combine 390mg of caffeine and 150mg of L-theanine. This unique combination has been shown to improve focus in subjects up to 90 minutes after ingestion.² Caffeine has also been shown to jack up energy for extreme training intensity.^{4,3}

Best Muscle Pump Possible First to combine 8.000mg of L-citrulline malate and 200mg of quercetin, L-citrulline has been scientifically shown to reach

superior peak plasma arginine levels compared to a larger dose of L-arginine.4 Quercetin has been clinically shown to increase

key markers of nitric oxide production and reduce a vasoconstricting factor.

Faster Muscle Growth

Delivers a clinically proven 5,000mg dose of creatine. 4,6
