

Lutemax® supplies lutein, zeaxanthin, and meso-zeaxanthin, the three carotenoid nutrients that are concentrated in the eye. These carotenoids are excellent anti-oxidants which naturally accumulate in the retina and support healthy light-sensing and glare control.* Lutein with Lutemax® helps protect against photo-damage from blue light. Blue light is the most hazardous component of the visible light spectrum. Research has shown that lutein has a protective effect against blue light.

Formulated for those who are exposed to sunlight, indoor lighting, computers, TVs and other digital devices.

Helps enhance visual function*

Helps promote macular health*

Helps support the eyes for all ages from blue light*

Helps protect against oxidate stress from blue light*
