Green Tea Fat Burner™ increases your calorie burning ability in fast-acting Liquid Soft-Gels.

This product has been formulated to deliver a highly concentrated form of green tea extract combined with caffeine that, while not literally "melting" fat off the body, has been shown to:

- Increase calorie burning (thermogenesis)
- Kick-start your fat burning ability (fat oxidation)
- Supply powerful antioxidant protection

When used in conjunction with a reduced calorie diet and exercise, this product can help you achieve your weight loss goals.

Green Tea Extract – Traditionally used in China for thousands of years, green tea delivers a wide range of health-promoting nutrients. Green Tea Fat Burner™ delivers a standardized extract of green tea with superior levels of EGCG for optimum results.*

EGCG – EGCG is the most powerful and most abundant flavonoid found in green tea. A body of research suggests that EGCG is responsible for the majority of health benefits that are attributed to green tea consumption. When combined with caffeine, EGCG has been scientifically researched for healthy weight management support. This product contains a full 400 mg of EGCG per maximum daily dose.

Vitality Boost – This blend of adaptogenic botanicals contributes powerful phytonutrients.

Antioxidant Boost – This combination of "super fruits" helps to protect against cell-damaging free radicals.

Applied Nutrition® is committed to developing science-based products that exceed the highest standards for quality and purity. As a leader in innovation, we continuously strive to bring forward new ideas and groundbreaking formulas that enhance health and well-being.
