

Doctor's Best Heart Prime with KD-Pür® EPA (an omega-3 fatty acid) helps enhance cardiovascular and cellular health. The high EPA levels of KD-Pür® support heart health and inhibit the enzyme that produces excessive omega 6 fatty acid. KD-Pür® EPA also helps balance the fatty acid ratio by influencing certain cytokines and C-reactive protein. CoQ10 in Heart Prime with KD-Pür® helps reduce oxidative stress in the heart and supports endothelial function. BioPerine® enhances the absorption and bioavailability of CoQ10 and EPA in the bloodstream.*

May help lower triglycerides and increase HDL (good cholesterol) levels already within the normal range*

Helps address loss of CoQ10 caused by statin drugs and aging*
