Why Care For the Prostate?

A healthy prostate gland is essential to a man's urinary and sexual health. The prostate is a walnut-sized gland that encircles the urinary canal at the base of the bladder and serves three primary functions in the body:

- To act as a muscular valve to prevent the backflow of urine
- To produce a portion of semen
- To help eject semen during sexual intercourse

Maintaining healthy prostate function is one of the most important steps that a man can take to enhance his quality of life and overall well being.*

Supporting Men's Health... Naturally*

We understand that men are seeking natural solutions for optimizing their health. That's why we developed this unique men's health formula that supplies targeted nutritional support for prostate comfort and urinary flow, including one of the most powerful prostate botanicals... **Saw Palmetto**.
