

HOW DOES MOVE FREE® WORK?

Move Free® Advanced supports 5 signs of joint health: mobility, flexibility, strength, lubrication and comfort so you can do the things you love.*

Glucosamine

Glucosamine is key for the formation of cartilage, an essential building block of your joints. Glucosamine also supports the mobility and flexibility you want in everyday life.*

Chondroitin

Chondroitin is a building block of cartilage that supports joint strength by helping to resist compression in the joint. Chondroitin attracts fluid to your joints to support cushioning and lubrication.*

Uniflex® (or FruiteX-B Calcium Fructoborate)

Uniflex® is a clinically tested mineral complex that supports joint comfort in as little as 2 weeks¹.*

Joint Fluid (or Hyaluronic Acid)

Hyaluronic Acid is the same molecule found in healthy joint fluid that supports joint lubrication and smooth movement. As we get older, our levels of HA tend to decrease.*

Easier to swallow tablets

We know that taking big pills every day can be a challenge. That's why we have developed easier to swallow, smaller tablets than other leading joint care brands¹. Our exclusive state-of-the-art technology allows us to pack the same amount of our powerful ingredients into a smaller tablet, making it easier to take every day for the best possible results.

Proud sponsor of the
ARTHRITIS FOUNDATION®
www.arthritis.org

Move Free® is a Proud Sponsor of the Arthritis Foundation®.

Move Free® is proud to support the Arthritis Foundation's efforts to help people take control of arthritis. Funds from Move Free® are used for cutting-edge scientific research, advocacy and education.

*Move Free® Advanced tablets are smaller than other leading joint care products containing the combination of glucosamine and chondroitin.
