

MTTM THE MOST POWERFUL SUPPLEMENTS ON EARTH.TM

At MuscleTech®, our researchers are passionate about supplements. Our mission is to develop the most scientifically advanced and effective supplements to help you build muscle and strength, lose weight, and improve athletic performance. Thanks to our millions of loyal customers, we are fortunate to be the most-awarded and best-selling sports nutrition brand over the past 20 years.

Many supplement companies do not disclose their ingredients, and don't invest in science and research, or quality control. We are different. MuscleTech® invests millions in product research and development, and quality control – and our supplement facts always tell you EXACTLY what you are getting: The Most Powerful Supplements on Earth!

MuscleTech® is the Leader in Science with a Multi-Million Dollar Research Budget – A portion of every dollar spent on MuscleTech® supplements is allocated toward scientific research to discover new and more effective ways to increase lean muscle and strength, and improve athletic performance. In fact, Team MuscleTech® researchers have collaborated with researchers at over 20 universities and research facilities around the world to study the various key ingredients found in our powerful formulas.

Platinum Test Booster – Delivers a precise dose of boron, which is shown in human research to increase levels of an important androgenic hormone in just 7 days, and reduce estradiol after 7 days.

It also contains the effective combination of *Rhodiola crenulata* and *Ginkgo biloba*, shown in another human study to maintain cortisol levels of subjects engaged in an intense training regimen. Cortisol is a catabolic hormone that can be released during intense training and can break down existing muscle.*
