(CFU = Colony Forming Units)

What are probiotics?

Probiotics work to keep a healthy balance of intestinal flora. They reduce the amount of harmful bacteria by replenishing and maintaining the "friendly" bacteria.* The depletion of beneficial bacteria can occur as a result of poor diet, taking certain antibiotics, stress, food poisoning, travelers' diarrhea or poor overall digestive health.

Why take GNC Ultra Probiotic Complex 25 with Vitamin D-3?

Each capsule combines 25 billion live and active cultures with Vitamin D-3, which may play a role in supporting colon health.* The clinically studied probiotics in this formula improve the balance of beneficial flora in the digestive tract, help reduce bloating and stomach discomfort, aid in improving regularity and support a healthy immune system.*

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
