OTHER INGREDIENTS: Carbohydrate Blend (Maltodextrin, Waxy Maize Starch), Protein Blend (Whey Protein Concentrate, Whey Protein Isolate, Calcium Caseinate, Soy Protein Isolate, Hydrolyzed Whey Peptides), (Cocoa (Processed with Alkali), Fat Blend (CLA Powder (Safflower Oil, Glucose Syrup, Sodium Caseinate, Silicon Dioxide, Lecithin, Tetrasodium Diphosphate, Natural Flavor, Natural Vitamin E), Medium Chain Triglycerides), Natural and Artificial Flavors, Lecithin, Acesulfame Potassium, Sucralose, Caramel Color.

CONTAINS: Milk and Soybeans.

WARNING: Consult your physician prior to using this product if you are pregnant, nursing, taking medication, under 18 years of age or have a medical condition. Discontinue use two weeks prior to surgery.

NOTICE: Significant product settling may occur.

Two cups of 2% reduced fat milk provides an additional 240 calories, 9g total fat (6g saturated fat), 35mg cholesterol, 240mg sodium, 750mg potassium, 23g total carbohydrate (23g sugars) and 16g protein.

FEED YOUR HUNGER FOR SIZE.

Beyond RAW® Re-Built Mass is built to deliver mammoth mass gains plus support recovery and growth from the most hardcore workouts.** With 850 muscle-building calories, the highest quality whey-leucine blend and a mega dose of creatine, this lean mass gainer is packed with the precise array of anabolic ingredients for enhanced size, increased strength and improved athletic performance.*

GROWTH MOTIVATED. PERFORMANCE DRIVEN.

For the forceful, mind-blowing workouts you live for, this mass gainer is loaded with a distinct combination of fuel-enhancing, energy-initiating anabolic primers to spark hyper mass results.

- 60 grams of fast, medium, and slow-acting protein
- Rapid-absorbing, clinically studied L-Alanyl-L-Glutamine diPeptide
- 134 grams of energy-driving carbs plus powerful essential amino acids
- Intense 10 gram Advanced Creatine Complex featuring 5 unique sources
- 2.5 grams Betaine to enhance athletic performance

*When used in conjunction with a resistance training program.

**In an 8-week study of healthy males performing resistance training, subjects taking this product's module of 20g whey protein and 6.2g leucine demonstrated an increased improvement in muscle strength and muscle size as compared to those performing the same training regimen on a placebo. In a second clinical study using a reduced volume resistance training protocol, the same anabolic module was shown to provide equal gains in maximum muscle strength and stamina when combined with one set or resistance training compared to two sets of the same amount of training without supplementation.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Typical Amino Acid Profile Per Serving
