400 GRAMS
VERY SUPER FINEST

- First Peptide-Bonded BCAA
- Superior to Free Form BCAA's
- Improves Exercise Performance
- Accelerates Intra & Post Workout Recovery
- Preserves "Lean" Muscle Mass
- Mixes Instantly & Tastes Great

As part of a weight loss regimen or for Bariatric patients to preserve "lean" muscle mass, stir 1 scoop into 12 oz of water and drink immediately before your first meal of the day. For strict diets, add one dosage at night before bedtime.

On Non-Training Days, to further speed recovery and preserve muscle mass, take 1 scoop with 12 oz of water in the AM and PM. Additionally, for added physical endurance, muscular pumps, and increased strength, add 1 serving of TRAPEP BCAA to GSP, TAC or to any pre-workout supplement or other Metabolic Nutrition product to further enhance desired results.

strongly to defend it and that would require the use of a variety of instruments to do so. It is not clear how the use of such instruments would be justified.
