Contains soy ingredients.

BCAAs comprise a large percentage of the amino acids within muscle tissue, and are an effective way of supplying muscle with a source of nitrogen.* We combined these BCAAs with a powerful dose of Citrulline Malate to produce a formula that works to enhance lifting performance while boosting recovery.*

Precision Engineered BCAA + Citrulline Malate Powder supports a reduction in muscle fatigue during muscle contraction, helping you squeeze out those 1-2 extra reps while also helping to improve post-exercise muscle soreness.*
