

Minerals play many important roles in supporting overall health. Our Cal Mag 1:1 vegetarian caps help maintain bone density, muscle and nerve health. This optimal ratio of minerals contains specially formulated citrate forms of both calcium and magnesium, which have better absorption than other forms. Vitamin D3 has been added to enhance the body's calcium absorption and utilization, and our product is formulated in a green food base.

Over time, calcium deficiency results in weakened bone structure, increasing the risk of fractures and compromising bone health. The average diet lacks proper magnesium, which maintains normal nerve and muscle function. Supplementing with one serving of Cal Mag 1:1 helps meet the RDA for these essential nutrients.†
