Vitamin D3 and Vitamin B12 are essential nutrients that support healthy brain function.

L-Theanine is a calming nutrient found in green tea that promotes a state of "alert relaxation," thereby supporting focus and concentration.

CoQ10, Turmeric and Alpha Lipoic Acid help to protect the central nervous system against free radical damage.

Rhodiola extract may help to elevate mood and brain energy, according to emerging research.

Phosphatidylserine & Phosphatidylcholine are important building blocks for healthy cell membranes in the brain.

DMAE and Huperzine-A may help to boost levels of acetylcholine (a key brain chemical that plays a role in memory).
