**45 NATURAL ORANGE FLAVOR
ENTERIC-COATED SOFTGELS**
OMEGA-3 SUPPLEMENT

NORWEGIAN GOLD® THE ADVANCED FISH OILS

DHA and Your Pregnancy

DHA is an Omega-3 fatty acid that infants take in from their mother during pregnancy and nursing. This nutrient is mainly found in fish and is essential to healthy brain, cognitive, and retinal development.*

The human brain grows most in utero and during the first year of life. Infants actively absorb DHA to support brain, eye and nervous system cell growth.*

Due to the transfer of DHA from mother to infant during pregnancy and breastfeeding, replenishing DHA during these times helps support a healthy postpartum mood.*

How Much DHA?

The recommended intake of DHA for pregnant and lactating women is at least 300 mg daily (*American Pregnancy Association*).

When Purity Matters Most

This product has received the highest 5-star rating from the International Fish Oil Standards (IFOS) program, the world leader in Omega-3 testing. This certifies that each batch exceeds all U.S. and international pharmaceutical standards for freshness, purity and potency.

Visit the IFOS website at www.ifosprogram.com to monitor the test results of this and every batch of Norwegian Gold Advanced Fish Oils.

Supplement Facts

Serving Size: 1 Fish Gelatin Softgel Servings per Container: 45

	Amount per Softgel	%DV**
Calories	7	
Calories from Fat	7	
Total Fat	0.8 g	1%
Trans Fat	0 g	---
