

DIRECTIONS: For best results take a minimum of (4) capsules twice daily—one dose during, or immediately following, exercise and another before bed. More can be taken as needed.

BioTrust BCAA Matrix™ is a superior product for preserving lean muscle tissue because (1) our formula contains 70% L-leucine, versus the 50% found in most BCAA blends. This supports an increase in muscle-sparing and recovery and (2) three distinct forms of each BCAA dramatically increase the bioavailability and optimize delivery to muscle cells. Most products use only one form of BCAA.[†]
