100% PURE • 300mg[†] OMEGA-3 KRILL OIL

**MAY REDUCE THE RISK OF
CORONARY HEART DISEASE[‡]**

- With over 40% Phospholipids
for Better Omega-3 Absorption**
- No fishy aftertaste
- Small, easy-to swallow
- Only 1 softgel per day

ACTUAL SIZE[†]

90 Softgels
(90 DAY SUPPLY)

DIETARY SUPPLEMENT

See back panel for information about the relationship
between omega-3 fatty acids and coronary heart disease.

DIRECTIONS: As a dietary supplement, take one (1) softgel
daily with a meal. For adults only. Consult your doctor
before taking any supplement.

Supplement Facts

Serving Size: 1 Softgel

Amount Per Serving	%DV
Krill Oil	300 mg ††
Omega-3 Fatty Acids	90 mg ††
EPA (eicosapentaenoic acid)	50 mg ††
DHA (docosahexaenoic acid)	24 mg ††
Phospholipids	130 mg ††

†† Daily Value not established

Other Ingredients: Gelatin Capsule (Gelatin, Glycerin,
Sorbitol, Purified Water, Natural Flavor). CONTAINS
CRUSTACEAN SHELLFISH (krill).

GUARANTEED: No sugar, salt, yeast, wheat, gluten, milk,
preservatives, soy or artificial colors.

Supplementation with omega-3 fatty acids should be avoided in
patients with inherited or acquired bleeding predispositions,
including those taking anticoagulants. As with any product
containing omega-3 fatty acids, adhere carefully to the amount
recommended by your health care practitioner.

KEEP OUT OF REACH OF CHILDREN. For optimal storage
conditions, keep in a cool, dry place with the cap tightly closed.
Protect from excessive heat or freezing. TAMPER RESISTANT: DO
NOT USE IF SEAL UNDER CAP IS BROKEN OR MISSING.

Heart Health

Omega-3 Krill Oil contains omega-3 fatty acids DHA
and EPA. Research has shown that DHA and EPA
may reduce the risk of coronary heart disease.[‡]

Antioxidant Protection

Unique antioxidants, including astaxanthin, may
protect you from damaging free radicals. Krill oil
boasts a profile of powerful antioxidants not seen in
standard fish oil.*

Phospholipid Complex

"Unlike fish oils, krill oil carries omega-3s in the
form of phospholipids - liposomes or little packages
that deliver the fatty acids directly to your body's
cells. Standard fish oils lack this phospholipid
complex.*"

[‡] Supportive, but not conclusive research shows that consumption of EPA and
DHA omega-3 fatty acids may reduce the risk of coronary heart disease.

*These statements have not been evaluated by the Food and Drug Administration.
This product is not intended to diagnose, treat, cure, or prevent any disease.

WHAT IS KRILL OIL?

Antarctic Krill

Krill oil contains omega-3 fatty
acids, antioxidants, and a
phospholipid complex. Krill
are small prawn-like creatures
that feed the world's most
mammoth animals...the great
whales. Great whales gulp down
huge quantities of krill
to provide the energy they
need to fuel their massive bulk.

Sustainability

Krill is one of the largest
biomasses in the ocean. It
is one of the most abundant
and sustainable organisms
on the planet. Krill represent
a renewable, sustainable and
positive nutrition source.

This product comes from a
fishery that has been
independently certified to
the MSC's standard for a
well-managed and
sustainable fishery. Please
visit www.msc.org for
more details.
