

Minami Prenatal is a premium supplement that delivers 480mg of Omega-3 DHA nutrition in one convenient softgel with a clean, lemon flavor and no fishy aftertaste.

The demand for Omega-3 DHA increases during pregnancy, and DHA taken during lactation enhances the quality of breast milk.[†] DHA is an essential nutrient for the proper development of infants and children.[†]

SUPER CONCENTRATED OMEGA-3

Minami offers one of the highest concentrated Omega-3 fish oils on the market, which means more Omega-3 nutrition, no fillers or saturated fats and fewer softgels to take.
