

SUGGESTED USE:† Take 1 serving twice daily with food.

WHAT IS D ASPARTIC ACID (DAA)?

DAA is a revolutionary new dietary supplement ingredient based on a naturally occurring amino acid found in the body. It rapidly increases the production of the testosterone via the pituitary gland and the testes by enhancing the cellular production of signal molecules that control the secretion of LH and testosterone.†

WHAT IS THE BENEFIT OF INCREASED TESTOSTERONE?

Increased testosterone in males may increase muscle size and definition. It may also decrease body fat. Increased testosterone may also increase energy levels and overall sexual function.†

ESSENTIAL SERIES

D ASPARTIC ACID
