

SUGGESTED USE:† As a dietary supplement, take 6 capsules daily. It is suggested to take 2 Capsules 1 hour before workouts. Take 2 capsules immediately after workouts and take 2 capsules before bedtime. For best results, take in conjunction with food or your favorite protein beverage. Glutamine Peptide helps digest protein from food consumption and protein shakes. This allows your body to feel healthy and strong.

WHAT'S IN GLUTAMINE PEPTIDE?

The Amino Acid Glutamine Powder joined with a string of Di and Tri Peptides. Glutamine instantly absorbed into the body while retaining 100% of the amino acid without loss due to digestion.†

PROTECTION - Prior to workout - Instant absorption of the peptide bonded glutamine will rapidly feed your muscles with the nutrient glutamine so that you prevent overtraining, a common factor in muscle soreness.†

RECOVERY - After workouts - Instant absorption of the peptide bonded glutamine feeds your muscles the necessary amount of nutrients to recover from a strenuous workout.†

GROWTH HORMONE - Most active hormone for increasing muscle and burning fat. Growth hormone levels are at their peak while your body is in a sleeping state. Instant absorption of the peptide bonded glutamine helps with increasing growth hormone which in turn increases muscle strength as well lean body composition.†

IMMUNE SUPPORT - Critical to the intestines and immune system as a fuel. Instant absorption of the peptide bonded glutamine is used to synthesize proteins, enzymes and all active cells in your body. A true building block for overall health.†
