

SUGGESTED USE: As a dietary supplement, take 3 capsules (1 serving) twice daily. It is recommended to take 3 capsules in the morning and 3 capsules in the evening so that the constant supply of nutrients is flowing in your body.

WHAT IS SUPER FLEX 5™?

Super Flex 5™ has been scientifically created with the precise ratios of Glucosamine, Chondroitin, MSM, Shark Cartilage and Boswella so your body can feel healthy and strong. These ingredients combine to provide strength to muscles, bones and joints allowing your body to avoid aches and pains that are commonly associated with working out.

WHAT IS GLUCOSAMINE?

Glucosamine (sulfate) is a powerful supplement that lubricates damaged cartilage that tends to get torn apart with strenuous activity – such as putting medicine onto a cut.

WHAT IS CHONDROITIN?

Chondroitin (sulfate) is a specialty supplement that attracts water into the joint space, which works to spread the lubrication created from Glucosamine.

WHAT IS MSM AND SHARK CARTILAGE?

MSM and Shark Cartilage attaches itself to the damaged cartilage and works to strengthen and rebuild the tendons.

WHAT IS BOSWELLA?

Boswella support the Glucosamine, Chondroitin, MSM and Shark Cartilage in their combined efforts to rebuild cartilage. Specialty Vitamins each have a specific function and a primary goal of replenishing your muscle, bones and joints with strength.

WARNING: Consult a physician before using this product. Keep out of the reach of children. Store in a cool, dry place 15°-30°C (59°-86°F). Do not use if tamper-evident seal is broken.
