NUTRITION FROM THE SOURCE®

UBIQUINOL

200 mg

Next Generation Co Q-10
Support Heart Health*
Important for Statin users**

CARDIO HEALTH*

While most Co Q-10 supplements are in the form of Ubiquinone, we deliver this Co Q-10 as Ubiquinol. Regular Co Q-10 supplements must be converted in the body first in order to provide antioxidant effects, where Ubiquinol is a body ready form of Co Q-10 that acts as an active antioxidant.* Our unique formulation also enrobes Ubiquinol with antioxidants ensuring potency and purity.

Energy is produced when regular Co Q-10 and Ubiquinol are converted back and forth through a cellular conversion process.* However, in order to get antioxidant support, regular Co Q-10 must first be converted in the body to Ubiquinol.* Ubiquinol is a body ready form of Co Q-10 that acts as an active antioxidant.*

In addition to its role as an antioxidant, Co Q-10 is important for **heart health** and **energy metabolism**.* Co Q-10 is especially important for **Statin** medication users.
