NUTRITION FROM THE SOURCE™

DIABETIC SUPPORT PACK

NUTRITIONAL SUPPORT FOR PEOPLE WITH DIABETES

SUPPORTS ANTIOXIDANT, EYE, HEART & NERVOUS SYSTEM HEALTH*
SUPPORTS SUGAR METABOLISM*

SUGAR FREE

EACH PACK CONTAINS:

- Multivitamin
- Calcium/Magnesium
- LutiGold™ Lutein
- Vitamin D 4,000 IU
- Alpha Lipoic Acid
- Zeaxanthin
- Cinnamon with Chromium Picolinate

NOT ACTUAL SIZE

30 DAY SUPPLY PACKETS

DIETARY SUPPLEMENT

MULTIVITAMIN & MINERAL SUPPLEMENT

Our balanced pack provides a rich source of over 20 essential vitamins and minerals needed for overall health.* Each multivitamin tablet is time released to provide you with extended nutritional support for maximum benefits. Vitamins A, C & E support antioxidant and immune system health while the B Vitamins support the nervous system.*

CINNAMON/CHROMIUM PICOLINATE - 1,000 MCG/400 MCG

Chromium supports healthy glucose and sugar metabolism, as well as protein and fat metabolism.* Taking advantage of Cinnamon in supplement form may be a more practical choice than just relying on the small amounts found in some foods.

CALCIUM/MAGNESIUM - 550 MG/300 MG

Calcium and Magnesium are two important minerals needed for bone health.* They also play important roles in nerve and muscle function through their involvement in nerve impulses and muscle contractions.*

LUTEIN - 20 MG

Lutein supports eye health and vision.* It is naturally found in the central area of the retina, called the macula, but levels can decline as we age. Lutein's antioxidant properties help to fight the effects of free radicals that can otherwise cause oxidative stress within the eye.*

ALPHA LIPOIC ACID - 600 MG

Alpha Lipoic Acid helps metabolize sugar in the body to support energy metabolism.* It also plays a role in antioxidant synergism to fight oxidative stress and cell-damaging free radicals.*

ZEAXANTHIN - 4 MG

Zeaxanthin is another predominant carotenoid naturally present in the macula of the eye, and is selectively placed in the macula's center. Like Lutein, Zeaxanthin is not made in the body and must be obtained from dietary sources.

VITAMIN D - 4,000 IU

Vitamin D is required for calcium absorption and a healthy immune system.*
