for younger feeling joints†

- Clinically Proven Joint Relief†
- All Natural & Glucosamine-Free
- Improve Mobility & Flexibility†

Helps Your Joints Feel Young Again†

Remember when you were a child and your body just seemed to "bounce back" from the everyday rigors of your active lifestyle? The reason your joints don't bounce back so quickly now is because those same joints have been stressed over time and are not getting the relief they deserve.

In-vitro studies show that the antioxidant action and unique activity of i-flex® may prevent the **damaging cell reactions** caused by chemokines and interleukins in your joints.^{1,2} These studies also found that i-flex® helps reduce the oxidative activity that speeds the deterioration of your joints.¹

i-flex® restores comfort where it matters most.¹ With i-flex®, you won't miss a beat, **taking on the activities you enjoy...being with the people you love.**¹

i-flex®

for younger feeling joints†

All Natural & Clinically Effective Formula†

The i-flex® formula has been tested in 4 placebo-controlled joint relief clinical studies and used by thousands around the globe to relieve their joint discomfort.^{1,1-4}

Europe's Best Kept Secret on Joint Relief

The secret to i-flex's joint relief action is patented, Danish-processed rosehips. Europeans have relied on this ingredient for years to soothe their sore joints.¹ i-flex® is the only joint product that features these specialized rosehips.

Glucosamine-Free!

Unlike glucosamine-based joint products, which are commonly sourced from shellfish, i-flex® is a 100% natural supplement made exclusively from patented Danish-processed rosehips.

If you've been suffering with aching joints, your new solution is here... i-flex® for younger feeling joints.¹
