This product comes from a fishery that has been independently certified to the MSC's standard for a well-managed and sustainable fishery.

**Eco-Friendly.** Krill is one of earth's most abundant and sustainable organisms. The harvest of krill is well below conservative international catch guidelines. Schiff® MegaRed® goes a step further by only sourcing krill from the Antarctic where krill is most abundant. This helps the ecosystem maintain a healthy, sustainable krill population.

• Is easily recognized and utilized by your body's cell membranes, which are also phospholipid, allowing easy absorption.  
• Just one small pill with no fishy aftertaste, that's why MegaRed® Omega-3 Krill Oil is the superior choice.

**MEGARED® OMEGA-3 KRILL OIL IS DIFFERENT.**  
**ITS OMEGA-3s ARE CARRIED IN PHOSPHOLIPID FORM, SO IT:**  
• Easily mixes in the stomach and doesn't leave an unpleasant aftertaste.  
• Is easily recognized and utilized by your body's cell membranes, which are also phospholipid, allowing easy absorption.  
• Just one small pill with no fishy aftertaste, that's why MegaRed® Omega-3 Krill Oil is the superior choice.

In order for Omega-3s to be put to good use, they must first be absorbed by your body. Traditional fish oil floats on top of your stomach, giving that unpleasant fishy aftertaste.
