In order for MegaRed-3s to be put to good use, they must first be absorbed by your body.

Traditional fish oil floats on top of your stomach, giving that unpleasant fishy aftertaste.

MEGARED® OMEGA-3 KRILL OIL IS DIFFERENT. ITS OMEGA-3s ARE CARRIED IN PHOSPHOLIPID FORM, SO IT:

- Easily mixes in the stomach and doesn't leave an unpleasant aftertaste.
- Is easily recognized and utilized by your body's cell membranes, which are also phospholipid, allowing easy absorption.

Just one small pill with no fishy aftertaste, that's why MegaRed® Omega-3 Krill Oil is the superior choice.

Due to the natural variability of MegaRed's 100% pure krill oil, each softgel may include more than 300 mg to ensure labeled potency.

Directions: As a dietary supplement, take one (1) softgel daily.

Eco-Friendly: Krill is one of earth's most abundant and sustainable organisms. The harvest of krill is well below conservative international catch guidelines.

Schiff's MegaRed® goes a step further by only sourcing krill from the Antarctic where krill is most abundant. This helps the ecosystem maintain a healthy, sustainable krill population.

This product comes from a fishery that has been independently certified to the MSC's standard for a well-managed and sustainable fishery.
