

MET-Rx® XTREME SIZE UP®

Revolutionary METAMYOSYN® Muscle Mass Formula*

If you are one of those people who have a tough time packing on solid, powerful mass, try MET-Rx® Xtreme Size Up®, specially designed for hard gainers who want to gain weight and pack on mass.* MET-Rx® Xtreme Size Up® features Four Optimizer Blends to help you keep growing when other weight gainers quit! Our specially selected nutrients are designed to meet your body's needs for both immediate and sustained energy and protein synthesis.*

The Secret is the Source of Protein!

METAMYOSYN® Muscle Mass Optimizer Blend combines the trusted METAMYOSYN® protein blend, with extra Whey Protein and Creatine, to provide sustained, highly bioavailable fuel for your body's protein needs.

A combination of fast and slow proteins results in a more prolonged absorption rate allowing extended muscle-amino delivery.* By extending the delivery of all essential amino acids to your muscles, MET-Rx® Xtreme Size Up® helps to stop you from going into a catabolic state which can otherwise lead to muscle loss.*

MET-Rx® METAMYOSYN® Muscle Mass Optimizer Blend utilizes complete proteins from the finest sources to ensure every amino acid required by your muscles is supplied.*

Complex Carb Optimizer Blend contains high fiber and top-quality complex carbs to intensify the time release effects of the METAMYOSYN® Muscle Mass Optimizer Blend and keep you pumped with nutrients for a longer period.* This specialized blend contains 64g of complex carbs, providing about 80% of the total carbohydrates in MET-Rx® Xtreme Size Up® (79g total carbs).

MET-Rx® Xtreme Size Up® is formulated with no fructose, so you won't experience the dreaded crash and burn that comes from consuming sugar-laden formulas. Keep your mind energized with complex carbs so you can keep training and growing!*

Lean Lipid Optimizer Blend contains just the right amount of dietary fats per serving. We know that your goal in your workout is to pack inches onto your biceps rather than your waist, so we didn't compromise quality with loads of unhealthy fats that could slow down your progress.

MET-Rx® Xtreme Size Up® contains both quick digesting MCTs and slower digesting flaxseed and sunflower fats, which allows for increased energy availability over an extended time period.* Best of all, there are no unhealthy trans-fats in our formula.

MultiVitamin Optimizer Blend packed with a rich source of specially selected vitamins and minerals essential to carbohydrate and protein metabolism.* Optimal intake of key vitamins and minerals is especially important when following a high-calorie diet and exercise program for mass gains, in order to assure proper usage and muscle metabolism of ingested calories.* You can rest assured that our comprehensive blend of the right vitamins and minerals will complement your nutrition plan to support your bodybuilding goals and optimal health.*

In order to make serious gains, you need to train hard, get lots of rest, and take in plenty of key nutrients. MET-Rx® Xtreme Size Up® makes it easy to get the high quality protein, complex carbs and essential nutrients that are important for a serious, intensive training program.

SUSTAINED PROTEIN SYNTHESIS OF WHEY AND CASEIN PROTEIN

Approximate time points illustrating whey and casein's differing effects on protein synthesis when taken on an empty stomach.

Chocolate
Naturally and Artificially Flavored

» 60g Protein ♦ » 600 Calories ♦

» 3g Creatine ♦ » 3g Glutamine ♦

» 64g High-Quality Complex Carbs! ♦

» No Fructose or Aspartame

DIETARY SUPPLEMENT • NET WT. 6 lbs. (2.721Kg) ♦ per 4 scoop serving

DIRECTIONS: For adults, add four (4) scoops (600 calories) (167g) to 16 ounces of cold water and mix thoroughly in a blender or shaker. For increased calories, use 16 ounces of skim milk (772 total calories) or 2% milk (844 total calories) instead of water. Increase or decrease the amount of liquid to achieve desired consistency. Drink immediately for best results. As a reminder, discuss the supplements and medications you take with your health care providers.
