Why is MegaRed® High Concentration Krill Oil superior?

MegaRed® High Concentration Krill Oil carries its omegas in a phospholipid form for easy absorption and uses 100% pure Antarctic krill, tiny crustaceans that thrive in the frigid waters of the Antarctic. It also contains astaxanthin, a naturally occurring antioxidant.

Besides, MegaRed® is the first to give you 30% more Omega-3s per milligram compared to what you can find in standard pure krill oil supplements. All in just one, easy to swallow pill.

MegaRed® goes a step further by only sourcing krill from the Antarctic where krill is most abundant. This helps the ecosystem maintain a healthy, sustainable krill population.

GUARANTEED: No added sugar (sucrose, fructose, lactose), salt (sodium chloride), yeast, wheat, gluten or milk. No preservatives or artificial colors.

GUARANTEED for purity, freshness and labeled potency.
