

DIRECTIONS: Take one capsule daily, or as directed by your healthcare practitioner.

Methyl Protect™ is a comprehensive formula designed to support optimal methylation and help maintain healthy homocysteine levels. It features five key nutrients that are involved in homocysteine metabolism: folate as calcium folinate and 5-MTHF† for increased bioactivity; trimethylglycine; and vitamins B12, B6, and B2. These five nutrients, provided at therapeutic levels and in activated forms, support enhanced methylation and overall cardiovascular health.*
