AMINO 2700™

Sustained Release Amino Acid Supplement

700 Tablets

Increase Strength & Recovery Time | High Potency L-Form & Peptide Bonded Amino Acids

WHO WE ARE Universal Nutrition has been providing cutting edge and staple nutritional supplements to bodybuilders and hard training athletes the world over since 1977. As time passes, certain ideals never go out of style. Honesty. Integrity. Respect. These are the values we uphold and are the bedrock upon which we built our business. **WHAT IT IS** Amino acids are anabolic in nature and are essential for building solid muscle mass while increasing and maintaining lean muscle mass. Amino 2700™ is a high potency, sustained release amino acid supplement packed with L-form and peptide bonded amino acids. Our amino acids are derived from whey protein concentrate (WPC) and whey protein hydrolysate (WPH) which allows for quicker assimilation into muscle tissue. Each tablet is packed with over 2,000mg of amino acids, and when taken prior to each meal, it becomes ideal for increasing overall amino intake throughout the day.* **HOW WE BACK IT UP** What is on the label is in the bottle and what is in the bottle will help you reach your goals. We believe it and proudly stand behind every product we manufacture. Our word is our bond.
