

SAMe: Natural Mood Support†

SAMe (S-adenosylmethionine) is a naturally occurring chemical in the body that continually fuels vital body functions, including the nervous system and the liver.

SAMe contributes to the formation of some neurotransmitters, including dopamine and serotonin, helping you to feel better naturally, safely, and effectively.

BIOVEA's SAMe uses a clinically effective form of SAMe that is 100% vegetarian, gluten-free, and enteric-coated for stability.
