University Research Supports Nitro-Tech® Hardcore Pro Series

In order to engineer Nitro-Tech® Hardcore Pro Series. Team MuscleTech™ teamed up with researchers from St. Francis Xavier University and the University of Saskatchewan to conduct some of the most innovative musclebuilding research in history. Nitro-Tech Hardcore Pro Series features Nitrogen Betention Technology, developed to drive superior nitrogen retention for faster and greater muscle gains than whey protein #The power of Nitrogen Retention Technology is illustrated by the incredible muscle gains experienced by subjects using the core formula in Nitro-Tech Hardcore Pro Series along with a hardcore training program. Just check out the study results! In a six-week, double-blind study involving 36 test subjects with at least three years of weight-training experience, subjects using the core formula in Nitro-Tech Hardcore Pro Series packed on an incredible 73 percent more lean muscle than subjects using whey protein (8.8 vs. 5.1 lbs.). Subjects using a placebo gained only 2 pounds of muscle. *In the same study, subjects using the core formula in Nitro-Tech[®] Hardcore Pro Series jacked up their bench press by 143 percent more than subjects using when

protein (34 vs. 14 lbs.). The placebo group only added 16 pounds.* Mouth-Watering Flavors Make Nitro-Tech® Hardcore Pro Series a Must-Have

Researchers at Team MuscleTech™ collaborated with product development specialists and industry-leading flavoring experts to develop protein formulations that taste so incredible they rival that of the richest, most decadent desserts known to man. After conducting countless internablind-comparison lab taste tests, Team MuscleTech™ researchers achieved flavor perfection. You'll be absolutely blown away by the velvety smooth taste of every Nitro-Tech® Hardcore Pro Series flavor.
