

CERAPLEX®

(Neuro-Protector)†

Ceraplex® contains several unique natural ingredients that have a long history of use in fighting free radicals, toxins and unhealthy inflammatory conditions that are hard on the brain. The ingredients in Ceraplex® were selected for their ability to work together synergistically to provide a broad spectrum defense against a variety of brain-damaging toxins.†

Alpha Lipoic acid (ALA) thought to be one of the secrets of the brain-boosting effects of spinach, is a powerful antioxidant that works at the mitochondrial level. ALA has been shown to revitalize or recycle other neuro-protective, anti-oxidant agents, such as Vitamins C and E, and CoQ10. ALA, when combined with Acetyl-L-carnitine, as found in **Procera AVH®**, has been shown to have remarkable synergistic effects in helping to slow down brain aging and helping to improve brain health and cognitive performance.†

Curcumin (CUR), a bright orange-yellow polyphenol found in the spice turmeric, is a powerful inhibitor of a broad number of unhealthy inflammatory processes in the brain and body. It's a master broad spectrum anti-oxidant that uniquely activates so-called "detoxification enzymes." Its detox and neuro-protective properties are unique amongst all natural ingredients, and it can even help chelate heavy metals, such as lead and iron, helping to "sweep" them out of the brain.†

Methylcobalamin (MCB) is a co-enzyme, methyl form of the more common Vitamin B-12 supplement known as cobalamin. Vitamin B12 is only found in adequate amounts in shell fish, beef and liver, and is required for proper neurological function. However, as we age our digestive system can lose its ability to extract adequate B-12 from our food. Low levels of Vitamin B-12 can lead to shrinkage of the brain and accelerated cognitive decline. MCB is more neurologically active than cobalamin, and uniquely helps accelerate the body's repair of the damage to neural tissue which takes place daily as a result of aging, lifestyle (including poor diet, lack of exercise and excessive consumption of alcohol), free radicals and oxidative stress.†

N-Acetyl-Cysteine (NAC), an amino acid, has powerful neuro-protective and anti-oxidant actions, even at the mitochondrial level. NAC is a precursor of glutathione, one of the most powerful endogenous immune enhancers. NAC and glutathione can also fight a broad range of free radicals. NAC has been shown to chelate heavy metals, such as lead and mercury, reducing their toxic load on the brain.†

Quercetin (QURC) is a dietary flavonoid found in many plants, including tea, apple, onion, ginkgo biloba and citrus. Quercetin is believed to be the most active of the flavonoids, and many medicinal plants owe much of their activity to their high QURC content. Quercetin has demonstrated a potent ability to help inhibit unhealthy inflammatory processes, exerts potent antioxidant activity, and boosts the effectiveness of vitamin C. Quercetin is one of the best neuro-protective molecules found in nature.†

Resveratrol (RES) is a flavonoid found in more than 70 plants, including Asian herbs, grapes, peanuts and berries. There is increasing evidence that resveratrol exerts multifaceted anti-oxidant, neuro-protective effects in the brain. Importantly, resveratrol was reported to help slow aging and increase lifespan in simple organisms, and is considered one of the most significant anti-aging nutrient discoveries of all time. Resveratrol and Quercetin work together to potentiate each other's benefits.†

Brain Detox Formula!

"Helps protect against the harmful effects of free radicals, stress and aging."†

CERAPLEX®
(Neuro-Protector)†

Neural Protection Support Technology†

- Detoxification†
- Neuro-Defense†
- Anti-Aging†
- Brain Anti-Oxidant†

Dietary Supplement

60 Capsules

DIRECTIONS: Take 2-3 capsules a day with food (snack or meal).

SUPPLEMENT FACTS

Serving Size: 3 Capsules

	Amount Per Serving	% Daily Value
Vitamin B-12 (as methylcobalamin)	1,000 mcg	16,667%
Ceraplex™ Proprietary Blend	1,080 mg	*
N-Acetyl-Cysteine, Alpha Lipoic Acid, Turmeric Extract (95% Curcuminoids) (BCM-95®) (Curcuma longa) (rhizomes), Quercetin (Dimorphandra mollis) (pod, seed), Japanese Knotweed Extract (50% Resveratrol) (Polygonum cuspidatum) (root)		

* Daily value not established.

Other Ingredients: Gelatin, microcrystalline cellulose, silicon dioxide and magnesium stearate.

Ceraplex® is a proprietary blend of natural ingredients designed to help protect the brain from the harmful impact of free radicals and neurotoxins from the environment, stress and aging.†

Ceraplex® provides a synergistic, broad spectrum of brain-specific anti-oxidants which can help support the brain's natural immune defense and detoxification processes, making it a perfect companion to **Procera AVH®**.†

WARNING: Do not use this product if pregnant or under the age of 18. Do not take this product if you have a medical condition that prohibits you from taking dietary supplements. Do not exceed recommended intake. If you experience any adverse reaction to this product immediately discontinue use and contact your physician. KEEP OUT OF REACH OF CHILDREN.
