

PICTURE YOURSELF STRONGER, LARGER, AND IN "HI-DEF!"

You train hard. Your goal is clear. Size, Symmetry, and "Cuts." You can picture the end result: Broad muscular shoulders, a super tight waist, and highly defined muscles. And now you've got the nutraceutical technology to get you the sought-after X-frame you want, fast: CE2 HI-DEF![†] The world's first strength-enhancing, power-prolonging, thermogenic creatine complex.*

CE2 HI-DEF: New "Triple Action" Complex

1 ESTER CREATINE *Gain Instant Strength*

It all starts with University-developed rapid-diffusion ester creatine in CE2 HI-DEF. You rapidly get the powerful strength-enhancing properties of creatine. Best of all, users report no water retention (edema), dehydration, or cramping.[‡]

2 BETA-ALANINE *Stronger - Longer!*

Now you can maintain your maximum strength for longer periods of time. MRI's premium beta-alanine (BA) releases carnosine, stabilizing muscle tissue "pH," giving the muscle cell the ability to flush out muscle-disabling toxins - fast. What's more, MRI's BA super-charges creatine's effect in the muscle cell, which may give you even greater performance.[‡]

3 THERMO-RK *Burn Fat - Maintain Muscle*

At last, you may be able to burn fat and maintain your muscle. MRI's Thermo-RK activates norepinephrine, increasing the breakdown of fat and making it available for your body to burn as muscle fuel. This also spares your glycogen stores and lean tissue. Now you can finally see yourself stronger, larger...and in HI-DEF![†]

DESCRIPTION: CE2 HI-DEF[®] represents the first genuine thermogenic creatine complex. This revolutionary formula is specifically designed to increase your strength, maintain maximum strength longer, and help burn fat. The advanced ester creatine in CE2 HI-DEF absorbs in seconds - giving you a rapid increase in strength. The beta-alanine helps destroy toxins, increasing your time of maximum strength. Thermo-RK helps break apart fat stores (lipolysis), transports them to the fat-burning mitochondria (mobilization), and burns them up (beta-oxidation). That makes CE2 HI-DEF the perfect creatine for individuals who want to increase their training performance and achieve high muscular definition.[‡]

DIRECTIONS: Take 2 caplets in the morning and 2 caplets in the afternoon.

ON TRAINING DAYS: Take one of your daily doses (2 caplets) 30-60 minutes before your workout to promote the utilization of fat for energy.

NOTE: To maximize results, drink at least 64 ounces of water daily while using CE2 HI-DEF.

STACKING: CE2 HI-DEF is ideal to stack with MRI's NO2 BLACK[®] or NO2[®] Platinum.

† THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE.

‡ PRELIMINARY LABORATORY RESEARCH INDICATES THAT THE RASPBERRY KETONE FOUND IN CE2 HI-DEF HELPS LIPOLYSIS, FAT-MOBILIZATION, AND BETA-OXIDATION.

MRI

CE2 HI-DEF[®]

THERMOGENIC CREATINE COMPLEX

Increases Strength in Fast Twitch (type II) and Slow Twitch (type I) Muscle Fibers[†]

Prolongs Time of Maximum Strength[†]

Helps Break Down, Mobilize, and Burn Fat^{††}

Enhanced with Beta-alanine[†]

Users Report No Edema or Muscle Cramping[†]

POWERED BY:

Thermo RK

Advanced Thermogenic
Lipolytic Technology

PATENT PENDING

180 CAPLETS

RAPID ABSORPTION ESTER CREATINE

DIETARY SUPPLEMENT

SUPPLEMENT FACTS

Serving Size: 2 caplets
Servings Per Container: 90

AMOUNT PER SERVING	
Creatine (from creatine ethyl ester hydrochloride)	1,400 mg*
CarnoSyn[®] Beta-alanine	200 mg*
Raspberry Ketone	200 mg*

* Daily value not established.

OTHER INGREDIENTS: Microcrystalline cellulose, stearic acid, magnesium stearate, silicon dioxide, croscarmellose sodium and coating (partially hydrolyzed polyvinyl alcohol, PEG 3350, talc, titanium dioxide, FD&C blue #2, FD&C red #40 and polysorbate 80).

WARNING: Do not use if you are pregnant, nursing, at risk for or suffer from renal (kidney) or hepatic (liver) dysfunction. Consult your physician if you are taking any over-the-counter or prescription medication. Do not use if you have been prescribed and are taking Disulfiram (Antabuse), or if you have a known hypersensitivity to any of the components in creatine or ethyl alcohol. Not intended for use by individuals under the age of 18 years.

KEEP OUT OF THE REACH OF CHILDREN. STORE AT 59-86°F (15-30°C). PROTECT FROM LIGHT AND MOISTURE. PRODUCT IS BEST IF USED WITHIN 45 DAYS OF BEING OPENED.
