1 capsule = 100 glasses of red wine (resveratrol content) and 100 blueberries (pterostilbene content)

The secret of red wine for total heart health.*
100% pure active trans-resveratrol per dose.
With Pterostilbene for superior antioxidant protection.*

WHY IS THIS FORMULA SUPERIOR?

The amount of active trans-resveratrol is key.

Ours: contains a clinical dose, 100 mg of active trans-resveratrol.

Others: typically contain low or trace amounts, and often do not specifically state the amount of active trans-resveratrol.

Our formula contains Pterostilbene, an antioxidant naturally found in blueberries. Pterostilbene has been shown in laboratory tests to work synergistically with trans-resveratrol to provide enhanced antioxidant properties for anti-aging benefits.*
