

PHARMANEX® STANDARD: Tēgreen 97® is an exclusive preparation of green tea leaf extract standardized to 97% polyphenols—two thirds of which are catechins (≥ 95 mg EGCG per capsule). Each capsule is equivalent to the polyphenol content of approximately seven cups of green tea without the caffeine. In the body, the antioxidants in Tēgreen 97® have been shown to help support the antioxidant defense system in the presence of pollution, stress, and toxins.* At this basic level, daily supplementation with Tēgreen 97® may be considered a first line of dietary defense for health protection.*

DIRECTIONS FOR USE: As a dietary supplement, take one (1) to four (4) capsules daily; preferably one (1) to two (2) each morning and evening with food. Maximum recommended serving of four (4) capsules daily (1,000 mg). Do not exceed 1,200 mg green tea in combination with other green tea-containing supplements. Store in a cool dry place.

WARNING: Keep out of reach of children. If you are pregnant or lactating, or taking a prescription medication, consult a physician prior to use.
