

ARTHROLACTIN® contains a natural micro-protein called MicroLactin™ that is derived from milk proteins. It has been found to provide fast and effective support of joint health and function. MicroLactin™ increases blood vessel tightness, thereby limiting the amount of escaping white blood cells which can increase inflammation. In a study published in the journal Current Therapeutic Research, MicroLactin™ was shown to be effective in reducing joint stiffness, pain and immobility. Another study published in the same journal found that MicroLactin™ supplementation resulted in a 60% greater improvement when compared to glucosamine alone for overall joint function improvement.†

SUGGESTED USE: As a dietary supplement, take two capsules two times per day with water for the first 10-14 days (loading phase). Take one capsule two times per day with water thereafter for maintenance.

CAUTION: Not for use by persons under the age of 18. If pregnant nursing or taking prescription drug, consult health care practitioner prior to use.

WARNING: KEEP OUT OF REACH OF CHILDREN DO NOT USE IF SAFETY SEAL IS DAMAGED OR MISSING.
