About Mineral Digestive Sweep™

Specially balanced to cleanse the bowel, the Digestive Sweep formula in this program contains Magnesium hydroxide.*

How it works. Magnesium hydroxide encourages healthy elimination by drawing water into the intestine, causing waste material to soften and swell, and creating pressure in the colon. The body responds by promptly cleansing the bowel.*

Advantages. Magnesium hydroxide works in a gentle, non-stimulating manner.

Alternative. Some individuals may need stronger action to encourage bowel cleansing. For this purpose, Thisilyn Cleanse is also available with an **Herbal Digestive Sweep™** containing Cascara sagrada rather than Magnesium hydroxide.
