

Realfood organics®

Here at Realfood Organics®, we love farm stands and supporting our local farmers and food artisans. It's the beauty of the freshly picked vegetables, the seasonal fruits, and the friendly smiles that keep us going back. It is this inspiration that led us to craft Realfood Organics®, a line of tailored multivitamins and aloe vera made from real foods. We source only USDA organic ingredients to share with you, what we would feel good about feeding ourselves and to our families. Good supplementation begins with real fruits, vegetables, greens, sprouts and legumes.

Realfood Organics® Probiotic Daily Powder™

Realfood Organics® Probiotic Daily Powder™ takes our whole food philosophy and combines it with probiotics and prebiotics to provide you added digestive support.*** Made from over 20 raw fruits and vegetables, this food blend provides a naturally nourishing environment for the probiotic cells.*** Nine different strains of probiotics are included in our Probiotics blend. And with the inclusion of organic inulin, this prebiotic helps support microflora balance.***

In just 1 scoop, you get the benefits of a probiotic, fermented food blend, plus aloe vera. So how do we pack in so much? Nutrients can be delicate and require careful handling to retain them. After years of research, we discovered that by combining fresh, raw whole food ingredients with probiotic cultures and then fermenting and freeze-drying this mix, we were able to deliver you a product we felt good about calling Realfood Organics®. This process allows us to give you a whole food supplement as close to its natural state as possible.

This powder can add a subtle twist to your favorite organic food whether you sprinkle on your salad, in your yogurt, or even in your favorite cold beverage to supplement your diet.
