

Doctor's Best Fish Collagen is a highly absorbable Type I collagen peptide from **TruMarine® Collagen**. The low molecular weight provides rapid and efficient absorption for healthy skin, nails and joints.* TruMarine® Collagen peptides contribute to healthy skin by increasing skin moisture, resulting in smoother skin and reduced wrinkle depth.* Studies show that these small molecules in the collagen peptides provide superior bioavailability and digestibility.* Contains no artificial color and is virtually tasteless.

- **Helps improve the appearance of skin and nails***
- **Helps provide building blocks for collagen synthesis***
- **Marine collagen helps boost the skin's resilience and capacity for water absorption and retention***
- **Helps increase skin elasticity for smoother, healthier skin***
- **Helps support deteriorated joint matrixes***
- **Helps improve long-term joint comfort and mobility***
- **Type I collagen is the strongest of all known collagen types***
- **Virtually tasteless and odorless, blends easily with any beverage**
