This potent blend of phyto-protective antioxidants helps maintain cell membrane integrity and fluidity while reducing damage from Reactive Oxygen Species (ROS).[†] ALA functions in both the aqueous and lipid portions of the cell, making it one of the most diverse of the antioxidant nutrients. ALA replenishes the antioxidant activity of vitamins, drives ATP synthesis, and improves glycemic regulation.[†] Key ingredients with strong scientific support are included to insure maximum natural benefit.[†]

Lutemax™ 2020 trademark belongs to OmniActive Health Technologies Ltd.
