CONTAINS: SOY AND FISH

The essential Omega 3 fatty acids EPA and DHA are incorporated into every cell in the body. As the brain develops, DHA is required for healthy cell membranes.[†] Neural, eye, and cardio health all require omega 3 fatty acids, especially during child development.[†] Distillation and rigorous testing of every batch ensures the absence of impurities such as mercury, PCB's, heavy metals and dioxins, making this a safe product ideal for growing bodies. Using only natural flavors, and no artificial ingredients, kids will love it!

We Guarantee Our Supplements for Potency and Purity
