

SUBSTANTIATED EFFECTS

The importance of amino acids, with regards to muscle protein synthesis, has long been accepted and validated; however, which exact amino acids at what specific ratios are the more important questions. We conducted a meta-analysis on over 10 years of ergogenic amino acid research to bring you the most comprehensive anabolic amino acid composition available, AminOD[®], the industry's first muscle protein synthesis-stimulating essential amino acid matrix. It even outperforms whole protein!†

AminOD[®] usage: As research provides evidence for effectively taking a serving of AminOD pre, intra and 1-2 hours post workout, mix one serving in 8 oz. cold water in any of the above instances to maximize muscle protein synthesis. For any time flavors splash, mix one serving in your water and enjoy as needed.

WARNING: AminOD[®] is intended only for healthy adults over the age of 18. Do not use if you are currently pregnant or nursing, could be pregnant, or are attempting to become pregnant. Consult a licensed health care practitioner before using this product. Discontinue use and contact a doctor immediately if you experience an irregular or rapid heart beat, chest pain, shortness of breath, dizziness, lightheadedness, fainting or presyncope, tremors, headache, nausea, or other similar symptoms. If you are a performance athlete, please check with your sanctioning body prior to use to ensure compliance.

PHENYLKETONURICS: Contains phenylalanine

Supplement Facts

Serving Size: 7.3g (Approximately 1 scoop)

Servings Per Container: 40

Amount Per Serving	% DV
AminoOD [™] EAA Repletion Matrix	5.8g **
AminoBlast [®] Instantized L-Leucine (2.1g),	
L-Phenylalanine (839mg), L-Lysine (719mg),	
L-Valine (600mg), L-Threonine (600mg),	
L-Isoleucine (480mg), L-Histidine (480mg)	

Daily Value based on 2,000 calorie diet

**Daily Value (DV) Not Established

Other ingredients: Citric acid, natural and artificial flavor, malic acid, sucralose, silica
