

Post-Workout

For maximum muscle support, consume 1 - 2 scoops immediately after exercise.*

MET-Rx® Ultramysyn® Whey

MET-Rx® Ultramysyn® Whey, great-tasting premium whey that delivers a powerful blend of high quality protein and the perfect combination of Branched Chain Amino Acids from protein that bodybuilders and athletes demand.

Consistent intake of MET-Rx® Ultramysyn® Whey, combined with an intense weight-training program, can support muscle and peak conditioning.*

What makes MET-Rx® Ultramysyn® Whey worth it:

- MET-Rx® Ultramysyn® Whey provides cross-flow, Ultrafiltered Whey Protein Concentrate.
- Precise laboratory techniques are utilized to retain the active Whey Protein Peptides and Microfractions including: Beta-lactoglobulin, Alpha-lactalbumin, Glycomacropeptides, Lactoferrin, and other bio-active components.
- Instantized Whey Proteins for easy mixing and complete dispersion in liquid.
- Quick absorbing Whey Protein Blend to speed amino acid delivery to muscles immediately after workouts, to help support muscle protein synthesis.*
- Contains naturally occurring Branched Chain Amino Acids.

Each serving contains over 4 g of the following Branched Chain Amino Acids from protein:

Which typically provides:

- Isoleucine 1.28 g
- Leucine 2.30 g
- Valine 1.23 g

Whey is the preferred protein source in sports and bodybuilding nutrition because it provides a high concentration of Branched Chain Amino Acids – made up of Leucine, Isoleucine and Valine – which are important for the maintenance of muscle tissue.* Unlike some other incomplete protein sources, MET-Rx® Ultramysyn® Whey contains all of the essential amino acids required for supporting lean muscle.*

To support muscle mass, consume approximately 1 gram of protein per pound of body weight from all dietary sources per day.*

MET-Rx® Ultramysyn® Whey contains no aspartame.

*Use in conjunction with an intense daily exercise program and a balanced diet including an adequate caloric intake.

Blender – Simple

Add one scoop of MET-Rx® Ultramysyn® Whey to blender filled with 6-8 ounces of your favorite beverage. Cover and blend for 20-30 seconds. For a delicious smoothie, add peanut butter, fruit, or yogurt along with ice cubes.^^

Shaker – Simpler

Fill a shaker bottle with 6-8 ounces of your favorite beverage. Add one scoop of MET-Rx® Ultramysyn® Whey. Cover and shake for 25-30 seconds.

Glass & Spoon – Simplest

Add one scoop of MET-Rx® Ultramysyn® Whey to 6-8 ounces of your favorite beverage. Stir for 20-30 seconds or until completely blended.

^^For Mass Gaining: add higher calorie foods such as peanut butter, 1-2% milk, and fruit juices.

For Dieters: add lower calorie foods such as skim milk, blueberries and raspberries, or just use water.
